French Roman Hyacinths

A charming and distinct class of hyacinths, extensively grown by florists for winter cut flowers. They force readily in the house, and we recommend them for outdoor planting. Each bulb gives three or four graceful flower spikes, and by successive planting they can be had in flowers from November to March. The delightfully fragrant flowers are more slender and smaller than the ordinary Hyacinths, but are considerably earlier. The best effect is produced by planting four or five bulbs in a medium-sized pot. In three colors—**White and Pink: 20c each; \$2.00 per doz.; \$10.00 per 100. Blue: 12c each; \$1.25 per doz.**

Hyacinth Glasses

In three colors—Green, blue and white, in low and high patterns; for forcing Hyacinths to bloom in water. **35c each; \$4.00 per doz. Parcel Post, 5c and 30c per dozen extra.**

THE MEYER SEED CO. gives no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs or plants they send out, and will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

M. & S. Superb Darwin Tulips

The flowers of this superb class have well been called "The Tulip Aristocrats." The remarkably brilliant coloring and splendid substance of their large globular or cup-shaped flowers, their long strong stems and robust growth of plant make them unsurpassed for May blooming in the garden. Darwins are not only desirable for outdoor bedding and last a long time after cutting, but have an advantage over other classes of late tulips in that they may be forced in pots provided it is done slowly. They range in color from the softest pink through shades of rose and crimson, mauve, violet, purple, yellow and maroon. The varieties we offer have been selected from a very large list after careful trials and we believe they are the most satisfactory obtainable. The quality of the bulbs will be found unsurpassed. Culture: the same as that for Cottage or Mayflowering Tulips.

For convenience in planting we give height in inches.

APHRODITE—Clear, silvery rose-pink with white base; a good sized round flower of exquisite color on a very tall, stiff stem. Height 34 inches. **15c each; \$1.50 per doz.; \$10.00 per 100.**

BARONNE De La TONNAYE—26 inches Rose, shaded blush, beautiful flower of large size. A faultless variety for bedding and splendid forcer. **60c per doz.; \$3.50 per 100.**

BARTIGON—Fiery red, very fine flower, good forcer. Height 24 inches. **75c doz.; \$5.00 per 100.**

CENTENAIRE—Rich violet-rose, with a large blue center; immense flower of perfect form. Magnificent for the border; excellent for forcing. Height 32 inches. **15c each; \$1.25 per doz.; \$8.50 per 100.**

CLARA BUTT—20 inches. Globular flower, salmon colored, with rose base and external flushing of pink. A choice refined Tulip of pleasing shade. **50c per doz.; \$3.00 per 100.**

DREAM—26 inches. Very large flower, lilac-shaded rose, one that should be in every collection. **60c per doz.; \$4.00 per 100.**

FARNCOMBE SANDERS—25 inches. Rosy scarlet, inside cerise pink with white center, one of the finest. **65c per doz.; \$4.50 per 100.**

GLOW—Dazzling vermilion scarlet, centre white with blue markings. Very beautiful. 22 inches. **60c per doz.; \$4.00 per 100.**

INGLESCOMBE YELLOW—20 inches (The Yellow Darwin). Color, glossy canary; large globe-shaped flowers borne on long stems. **55c per doz.; \$3.50 per 100.**

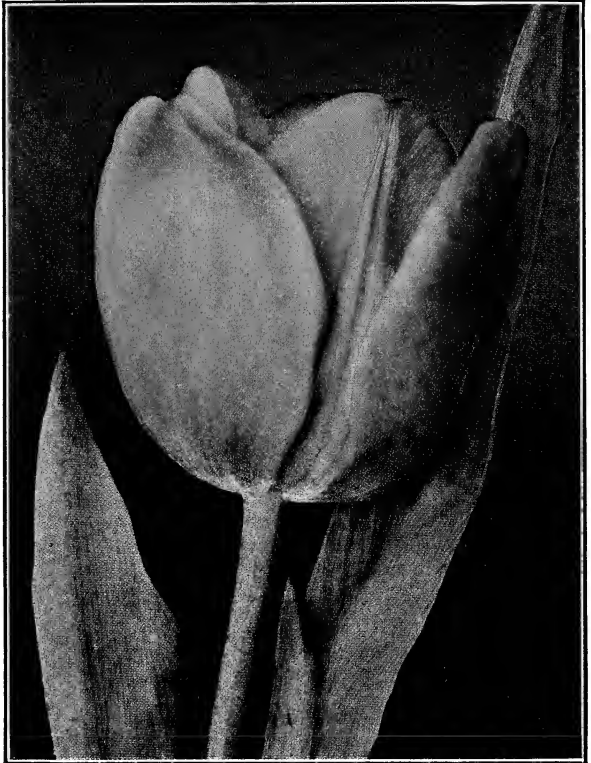

La CANDEUR—22 inches. Lovely soft white, slightly tinged blush, a beautiful large globular, erect flower. **60c per doz.; \$4.00 per 100.**

La TULIPE NOIRE (The Black Tulip)—25 inches. Deep black maroon. The blackest of all Tulips. Very large flower of fine form. **65c per doz.; \$4.50 per 100.**

MME. KRELAGE—28 inches. Bright lilac rose margined silver rose, center salmon pink, very fine. **65c per doz.; \$4.50 per 100.**

MASSENET—An exquisite shade of pale rose, with a broad margin of creamy white; base bright blue. A grand acquisition to any collection, however rare. Height 30 inches. **15c each; \$1.25 per doz.; \$9.00 per 100.**

PICOTEE (Maiden's Blush)—24 in. white, margined rose, gracefully curved petals. **60c doz.; \$3.00 per 100.**

Darwin Tulip Bartigon

PRIDE OF HAARLEM—24 inches. Brilliant deep salmon, shaded with scarlet. **65c per doz.; \$4.50 per 100.**

REV. H. EWBANK—20 inches. Soft lavender violet; very large flower. A beautiful flower for the garden or forced. **60c per doz.; \$4.00 per 100.**

SUZON—25 inches. Soft buff rose. Shading to blush at margin of petals, inside soft flesh pink, with white centre. **60c per doz.; \$4.00 per 100.**

TERRA COTTA—An exquisite shade of deep pink; very large handsome flower on strong stem. Height 30 inches. Recent introduction. **15c each; \$1.25 per doz.; \$9.50 per 100.**

WM. COPELAND—24 inches. Bright violet, early forcer. **65c per doz.; \$4.50 per 100.**

YOLANDA—Color a deep rosy-pink, flushed salmon. The finest and handsomest pink Darwin Tulip in cultivation. Height 28 inches. Very new. **20c each; \$2.00 per doz.; \$15.00 per 100.**

May 1, 1924.

Gentlemen: It gives me great pleasure to inform you of the wonderful success I had with the Hyacinths purchased from you in the fall. The blooms were better than any I have grown before.—**JUDGE C. W. HEUISLER**, Bretton Place, Guilford, Baltimore.

May 14, 1924.

Gentlemen: The Darwin Tulips which I purchased of you during the past season were very fine indeed.—**MISS ANNA M. BACON**, Sparks, Md.

May 15, 1924.

Gentlemen: The Parrot and Darwin Tulips which were purchased from you in the fall produced the most wonderful blooms. They were indeed good to look upon.—**MRS. CHAS. J. SWINDELL**, Roland Park, Baltimore.

Inglescombe Yellow.

All Bulbs sent postpaid, unless otherwise specified.

M. & S. Perfection Darwin Mixture

A mixture of choicest of varieties, giving a splendid range of colors. **Price, 50c per doz.; \$3.00 per 100.**

M. & S. Breeder or Old Dutch Late Tulips

The Breeders really form a distinct class by themselves, owing to their peculiar dull toned bronze colors. It is these odd colors which form one of the chief characteristics of the Breeders. Outside of that, most of them produce flowers with great lasting qualities and with a sweet agreeable fragrance.

LOUIS XIV (New)—16 inches. Dull bluish violet, margined golden brown; greenish black base starred yellow; large goblet-shaped flower of great beauty. Exquisite for planting outside and extra variety for forcing. **25c each; \$2.75 per doz.; \$20.00 per 100.**

ORANGE BEAUTY—24 inches. Golden orange. **75c per doz.; \$5.00 per 100.**

YELLOW PERFECTION—24 inches. Light bronze yellow. **60c per doz.; \$4.00 per 100.**

BRONZE QUEEN—25 inches. Soft buff, inside tinged golden bronze. **65c per doz.; \$4.50 per 100.**

JAUNE d'OEUF—25 inches. Rosy lilac, yellow bordered. **60c per doz.; \$4.00 per 100.**

MADEA—28 inches. Rose carmine, tinged salmon, very fine and large. **60c per doz.; \$4.00 per 100.**

The tulips which I grew from your bulbs the past spring were perfectly wonderful, and I venture to say were of the best I have seen in this section of the country.

MISS GLADYS HUGG,
Ironia, N. J.

Gentlemen: The hyacinth bulbs which I bought from you in the fall are now in bloom and they are simply wonderful.—MILDRED G. THOMPSON, Elkridge, Md.

M. & S. Parrot or Dragon Tulips.

M. & S. Parrot or Dragon Tulips

Parrot Tulips do not receive the attention they deserve. They like a light, sandy soil, shallow planting and a sunny location.

Parrot Tulips belong to the late or May flowering Tulips, and have immense, attractive flowers of singular and picturesque forms and brilliant and varied colors. The petals are curiously fringed or cut, and the form of the flowers, especially before it opens, resembles the neck of a parrot.

ADMIRALE de CONSTANTINOPLÉ—Fine red. 50c per doz.; \$3.00 per 100.

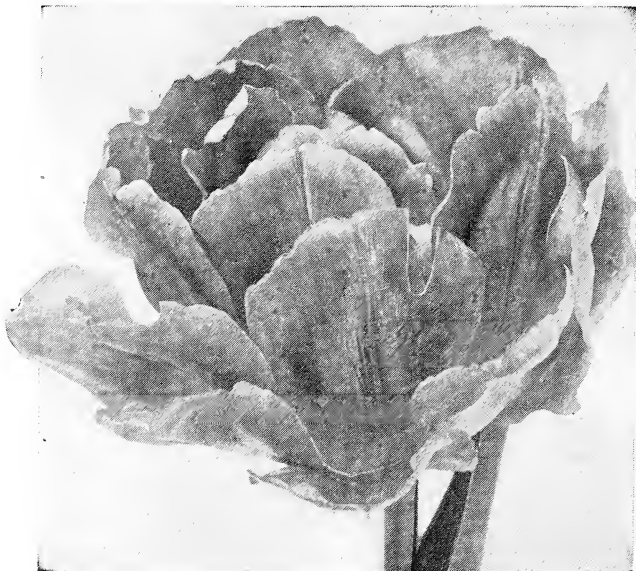

LUTEA MAJOR—Yellow, very fine. 50c per doz.; \$3.00 per 100.

Hardy Japanese Garden Lilies

No garden should be without some of these Queens of Flowers. They are perfectly hardy and can be planted in the late fall or early spring. Very seldom they are ready for delivery before early part of December.

AURATUM. (Goldbanded Lily)—Large, graceful flowers, composed of six petals of a delicate ivory-white, thickly studded with chocolate-crimson spots and striped through the center by a golden yellow band. **30c each; \$3.25 per doz.**

SPECIOSUM ALBUM—Large white flowers of great substance, with a greenish band running through the center of each petal. **40c each; \$4.50 per doz.**

SPECIOSUM RUBRUM, or ROSEUM—White, heavily spotted with rich, rosy-crimson spots. **35c each; \$4.00 per doz.**

SPECIOSUM MAGNIFICUM—Rich, deep red. **35c each; \$4.00 per doz.**

Lilium Candidum

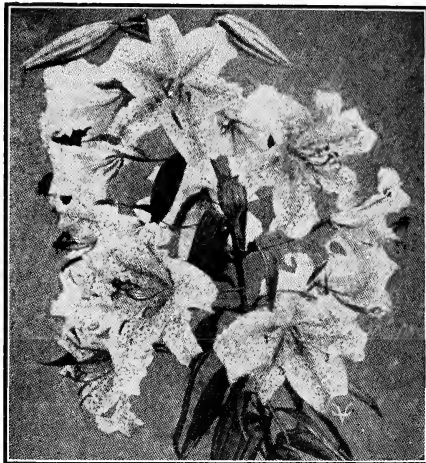

(MADONNA LILY)

Choice Northern France Grown

The favorite Lily of the old-fashioned garden, produces strong, stiff stems, studded with a mass of pure, glistening white flowers, that enliven the perennial flower-garden or, for contrast with the beautiful green shrubs of the June garden, are unequaled, frequently growing $4\frac{1}{2}$ feet high.

Plant some bulbs during September and October and enjoy a big crop of flowers next June; or pot up, store in cold frame and force for early winter in the greenhouse or conservatory. Our bulbs of this splendid Lily are grown in northern France, and are of the true thick-petaled variety, which is much superior in habit and flowering qualities to that of the cheap, loose, southern grown bulbs.

Extra Large Bulbs, 20c each; \$2.00 per doz.

Japanese Lily, Auratum.

Lily Bulbs for Indoor Growing

Lilium Harrisii

(BERMUDA EASTER LILY)

This is undoubtedly the best Lily for winter forcing, as it comes quickly into bloom. The flowers are trumpet-shaped, pure white, and delightfully fragrant. The freedom with which the flowers are produced is truly remarkable.

EXTRA FINE BULBS—7 to 9 inches, 30c each; \$3.50 per doz.

Calla Lilies

These like a stiff, clayey soil with a small quantity of shredded cow-mannure. Bulbs should be set with the crown, or top, protruding just above the surface. When in growing condition, warm water given several times during the week will hasten the flowering period and increase the number of blooms. When using the large-sized bulbs, plant but one in a pot; smaller ones, two. We call especial attention to the Yellow Calla, which is one of the grandest varieties in cultivation, and most valuable for house or conservatory decoration. Plant Calla indoors only in the fall of the year.

MAMMOTH WHITE CALLA LILY—Selected bulbs. **30c each; \$3.00 per doz.**

GODFREY EVERBLOOMING—This is a great improvement over the ordinary white Calla. The flowers, while a trifle smaller, are of purer white and delicately scented. **Strong flowering bulbs, 25c each; \$2.50 per doz.**

YELLOW CALLA LILY—A grand novelty—one that should be planted extensively. The deep golden flowers are truly magnificent and produced in abundance. The green foliage spotted creamy white, which adds to its beauty. **Selected Bulbs, 40c each; \$4.00 per doz.**

Freesia

This is one of the most beautiful of all Cape bulbs, possessing peculiar grace of form; and its fragrance is most delightful, one pot of a dozen bulbs being sufficient to perfume a whole house. As cut flowers they are extremely valuable; the unexpanded blooms opening in water, fill the air with the most delicate perfume, and their endurance is really remarkable.

IMPROVED PURITY—The finest and purest white variety yet introduced; of strong growth and with very large flowers.

$\frac{3}{4}$ " Mammoth Bulbs, 50c doz.; \$2.75 per 100.

$\frac{5}{8}$ " Selected Bulbs, 40c per doz.; \$2.75 per 100; \$25.00 per 1000.

M. & S. RAINBOW FREESIAS—Just like the above, but they come in all colors of the rainbow, very novel and handsome. **60c per doz.**

Freesia should be started outside in pots as early as possible, and brought inside before frost.

W. BYRD PRESS.

Improved Purity Freesia.

All Bulbs sent postpaid, unless otherwise specified.

Paeony Edulis Superba

M. & S. Choice Paeonies

Double Paeonies are too well known to require description. Their present popularity is due to the great improvement in them in recent years, their easy culture, the handsome appearance of the plant, and the brilliant and striking effect of their massive, finely formed and richly colored flowers. The attention given to them, in Europe and America, has resulted in the production of many notably fine new varieties. Among hardy, herbaceous perennials, the Chinese Paeonies rank about first for lawn or flower-border, or shrubbery decoration. They are all hardy.

CZARINA—Delf rose pink shading to violet.

QUEEN VICTORIA—Pure white, profuse bloomer.

COURONNE d'OR—Snow white, golden yellow stamens.

EDULIS SUPERBA—Beautiful brilliant pink.

FELIX CROUSSE—Rich, dazzling ruby red, without a tinge of purple.

All the above 50c each; \$5.00 per doz.

Snowdrops

These elegant little flowers, the first to make their appearance, while snow is still on the ground, should be found in every garden, not only because they are the earliest spring flowers, but because they are the loveliest. The Snowdrop thrives in almost any situation or soil, and should be planted as early in the autumn as possible, as they suffer much if left long out of the ground.

SINGLE—Selected bulbs. Doz. 25c; 100 \$2.00.

DOUBLE—Selected bulbs. Doz. 45c; 100 \$3.50.

Chionodoxa

(GLORY-OF-THE-SNOW)

An early flowering spring bulb for borders or rockery. Produces flower-spikes bearing ten to fifteen scilla-like flowers. Perfectly hardy and should be planted close together for effect.

LUCILLAE—Deep blue, with white center. Selected mother bulbs. 40c per doz.; \$2.00 per 100.

Rare Paeonies

REINE HORTENSE (SYN. PRES. TAFT) (Calot 1857)—Midseason. Enormous, compact flat flower of soft flesh color deepening to shell pink. Center showing crimson splashes, sometimes faint stripes on the face of the petals. Well formed and very striking. Deliciously fragrant. A vigorous grower and profuse bloomer. Rose type. Fine for cut flowers and usually in bloom just about Decoration Day. \$1.50 each.

LADY ALEXANDER DUFF (Kelway 1902)—Lovely French white. Central flower of rather flattened, circular form and the central petals have a touch of carmine. Side flowers come in semi-double, saucer-shape form, exposing the anthers. \$2.50 each.

SARAH BERNHARDT (Lemoine 1906)—Semi-rose type; late midseason. Apple-blossom-pink with each petal silver tipped, giving the appearance of a distinct border of pure white. The strongest growing of all Peonies. \$1.25 each.

GROVER CLEVELAND (Terry 1904)—Rose type; late. Very large and full dark crimson bloom. \$1.25 each.

Special offer: One of each of the above four, \$7.00.

VERY FINE MIXED PANSIES—Pkt. 5c; oz. \$1.50.

Tufted Pansies or Violas

While the flowers of the Tufted Pansies are not so large as the regular type, yet they bloom so freely that they are superior to pansies where effect is wanted, the colors being particularly clear and distinct; they also bloom for a longer time. Seed sown in April produces flowering plants by June, and from then on until frost they are a sheet of bloom. 10c per pkg.; ¼oz., 75c; oz., \$2.50.

Steele's Greenhouse Special Mixture Pansies

This is the pansy we sell to florists to grow the plants which they offer for sale in the early spring. It can be relied upon to be absolutely originators' stock. Pkt. 25c and 50c; oz. \$7.50.

Amaryllis Bulbs

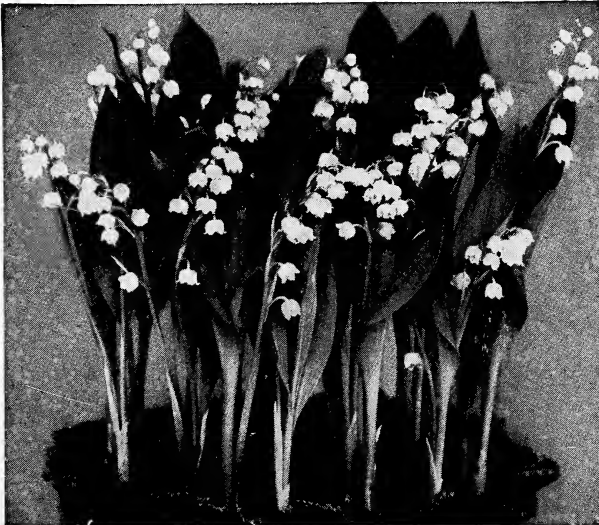

AMERICAN HYBRIDS—In offering this selection of seedlings we believe that they are the best obtainable at the present time, and we know of nothing that we can recommend that will give the amateur greater pleasure for his window garden. They embody, with vigorous growth, free-flowering habit and enormous size of the individual flowers, a really wonderful range of colors, varying from deep crimson to bright orange-scarlet, and from light rose to almost pure white, many of them beautiful combinations in stripes and variegations. Mixed varieties only in very strong bulbs. 75c each.

FORMOSISSIMA—(Jacobean Lily). Brilliant crimson, free and early. 125c each.

Eranthis Hyemalis

(WINTER ACONITE)

Early in spring the golden blossoms look charming, resting on an emerald-green cushion of leaves, and forming a striking contrast to the snowdrops scillas and chionodoxas. The foliage remains long after the flowers, making the plant especially valuable in moist situations, such as under

Lily of the Valley Growing in Prepared Fibre.

M. & S. Giant Exhibition Pansies.

trees, which the Winter Aconite enjoys, and where few other flowering plants will thrive. 3 to 8 inches high. 25c per doz.; \$2.50 per 100.

Ixias

The Ixia is a beautiful little winter-flowering bulb, with long, slender, graceful spikes of bloom. The colors are rich, varied and beautiful, the center always differing in color from the other parts of the flower, so that the blossoms, expanding in the sun's rays, present a picture of gorgeous beauty. Very desirable for pots.

CHOICE MIXED—40c per doz.; \$2.00 per 100.

Lily of the Valley

One of the most beautiful and admired spring flowering plants. For indoors it forces quickly. Planted outdoors they increase from year to year. Ready in December.

EXTRA LARGE CLUMPS—For outdoor planting. 30c ea.; \$3 doz. For postage add 5c for each clump.

PIPS FOR FORCING ONLY—These can be brought to bloom very quickly. We recommend our cocoanut fibre for this. Price, 80c per doz.; \$1.50 per 25; \$5.50 per 100.

Scillas

(Wood Hyacinths, Siberian Squill or English Bluebell)

Campanulata

(WOOD HYACINTH)

Bears spikes 15 inches high, of bell-like flowers, during early May. Plant 5 or 6 inches deep in shady situations. Very effective for borders; will grow under fir or pine trees.

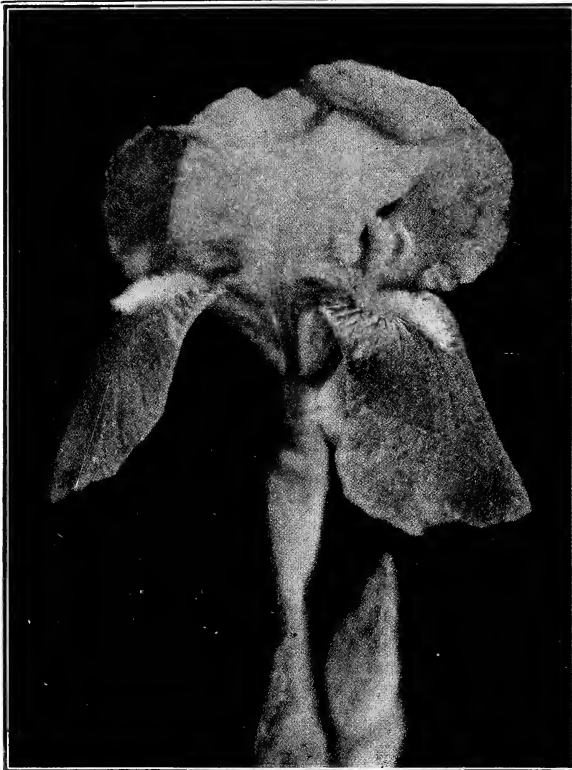

ALBA MAXIMA—Clear white, with very fine, large bells. 40c per doz.; \$2.00 per 100.

BLUE QUEEN—Erect spikes of porcelain-blue flowers; strong grower. 40c per doz.; \$2.00 per 100.

EXCELSIOR—Bright deep blue, with large bells. 40c per doz.; \$2.00 per 100; \$45.00 per 1,000.

ROSE QUEEN—Bells of soft lilac-rose; very pretty. 50c per doz.; \$3.00 per 100.

SCILLAS continued on next page.

Iris Germanica

Grape Hyacinths Muscari

(SIBERIAN SQUILL)

Spikes 3 to 4 inches high, of small, drooping, bell-like flowers. Fine for massing in borders or naturalizing. Plant 3 to 4 inches deep. Blooms in April.

BLUE—Splendid for massing. Jumbo bulbs. 50c per doz.; \$3.00 per 100.

Grape Hyacinths

Very beautiful little flowers for planting in masses, either in shade or where exposed to the sun. When planted out in herbaceous borders, where they can be left undisturbed, they do exceedingly well, each year adding to their already profuse-blooming qualities. Bloom outdoors during May. They are also excellent for pot culture.

HEAVENLY BLUE—This variety is the largest and best of the Grape Hyacinths. The bells are large and form a fine truss. Splendid effects are produced by massing in the garden or border. 40c per doz.; \$2.00 per 100.

Giant French or Poppy-Flowered Anemones

Mixed, containing a wonderful range of colors, including blue, rose, white, scarlet, etc. 60c per doz.; \$5.00 per 100.

ST. BRIGID ANEMONES—A celebrated Irish strain of semi-double flowering Poppy Anemones, in a multitude of charming colors, ranging from pure white to deepest maroon, including all intermediate shades, such as rose, red, pink, blue, etc. Mixed colors—60c per doz.; \$5.00 per 100.

Ranunculus

Double French Hybrids. A splendid strain of these bright spring flowering bulbs. Mixture contains all colors. 50c per doz.; \$4.00 per 100.

Spanish Iris Bulbs

Graceful, slender stems, a loose but beautiful flower, the charming colors thereof produce a combination not surpassed by an orchid. The exclamation of delight at first sight given forth by those who have not previously seen them are undisputable proof of their well-deserve merit. The finest effect with them are produced when planted in clumps of 25 or 100 bulbs and even more, either in the perennial border or by themselves. The stems are from 18 to 24 inches long; flowering period in May and early June. They may also be grown in pots indoors and stored in cold frames during winter and forced in bloom from March to May. As they are biennial they must be planted every other year.

KING OF THE BLUES.

CAJANUS—Yellow.

SOUVENIR—Lavender.

QUEEN WILHEMINA—White.

SOLFATERRE—Deep purplish blue with deep yellow blotch.

QUEEN EMMA—Fine deep golden yellow.

LA NUIT—Dark blue.

All the above, 75c per doz.; \$5.00 per 100.

IRIS GERMANICA Bearded Irises

The Iris Germanica are among the most desirable and easiest grown of our spring-flowering hardy plants, producing in May their showy flowers of exquisite coloring, combining the richest and most delicate tints. For best results plant in a well-drained sunny position, barely covering the roots. Avoid fresh manure in preparing your border.

Winter Top or Egyptian Onion Sets

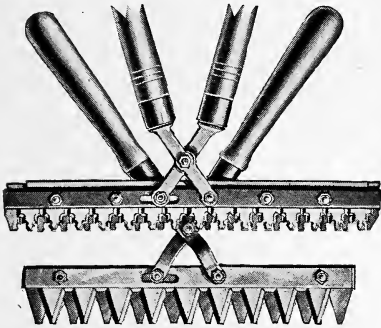

Winter Top or Egyptian Onion Sets are sometimes known as Perennial Tree Sets since the bulbs form on the top of the stalks if left in the ground. They are used and planted mostly to produce early green bunch or table onions. Planted during September or October and allowed to remain in the ground through the winter months, they produce the first early green onions—oftentimes ready for use before the last snow has disappeared from the ground. Pt. 15c; qt. 25c; 2 qts. 40c; $\frac{1}{2}$ pk. 75c; pk. \$1.25; bushel (28 lbs.) \$4.50. All postpaid but pts. and qts. add 5c to each.

Multiplier Onion Sets

Yellow and White Multiplier Onion Sets are the money makers for the growers of green onions, easy to plant, easy to grow, easy to wash and bunch. They produce from four to seven green onions from each bulb planted—think of it. They mature earlier than all other varieties of bottom sets. Plant during September or October. If not pulled in the spring will multiply in the ground and produce clumps of from four to seven onions in August. Price same as above.

OUR SUGGESTION FOR MAKING BEAUTIFUL LAWNS AND GARDENS

The real secret in making plants grow to perfection lies in having a rich fertile soil. All plants need feeding and a loose mellow soil in which to develop their real beauty. In all your planting let your first thought be the preparation of your soil so that the young plants can start off with a fair chance of life.

Wizard Sheep and Cow Manures are natural plant foods that will make your soil rich and fertile. They supply the essential organic matter to make soils mellow and friable, insuring strong root growth. Wizard is concentrated, convenient and absolutely weedless. Its concentrated strength goes a long way—**One bag equals a whole wagon load of stable manure.** It is not a chemical stimulant but a real plant food that gives your soil just what it needs to make plants grow.

LAWNS—Wizard produces a thick velvety green turf of lasting beauty. Fall is the best time to make your lawn and an application of Wizard now on new and old lawns will produce an establishe planting ready to start off vigorous and strong with the first breath of Spring. Scatter broadcast 6 to 10 lbs. per 100 square feet for best results.

FLOWER GARDENS—Beautiful green foliage and a wealth of vivid colored flowers are the result of feeding your plants Wizard. Applications during the growing season will put new life in your plants and prolong the blooming period. Fall applications to perennials, vines and shrubs at the rate of 10 lbs. per 100 square feet or a handful or more mixed with the soil under each plant will bring rugged growth and increased beauty next Spring.

VEGETABLES AND FRUITS—Wizard Sheep Manure produces big crops of crisp tender vegetables; fruit of high color and fine flavor. There is nothing better than Wizard. Apply 10 lbs. per 100 square feet or 2000 lbs. per acre.

FLORISTS—Wizard Sheep and Cow Manures have been the standard of quality for 17 years. For top dressing and liquid manuring Wizard Sheep Manure is unexcelled. Wizard Shredded Cow Manure makes an ideal mulch and supplies sufficient plant food to grow big crops of highest quality. You need manure to grow plants at a profit and it pays to use Wizard.

DON'T PLANT WITHOUT WIZARD BRAND

A Great Many of the Finest Lawns Around Baltimore Are Seeded with M. & S. Well-Known LAWN SEEDS

August and September are the best months for making new and building up old lawns.

M. & S. ROLAND PARK GRASS SEED.—Use 1 lb. to 200 Square ft., 50 to 60 lb. to acre

One of the most essential parts of the country place and suburban home is a carefully made and well-kept lawn. No trouble should be spared in its making, as much of the future results depend upon the start or foundation of the lawn, which, if correctly made, can easily be kept in perfect condition for years, and give pleasure not only to the owner, but to others who see it. In seeding for lawn-making, care should be taken that a well-balanced mixture of grasses is used, one composed of such varieties as will blend together well and also ripen successively, thus securing a healthy and beautiful color throughout the summer. Our M. & S. Roland Park Lawn Grass Seed produce beautiful and permanent lawn. It is made from our own formula, and composed of grasses which are adapted for the purpose of producing turf which retains its rich green color and velvet appearance throughout the entire summer and fall. In making up this brand we are careful to use seed that has been thoroughly re-cleaned, the light seed and chaff having been blown out.

M. & S. ROLAND PARK LAWN GRASS—1 lb. 35c; 3 lb. \$1.00; 5 lb. \$1.60; 10 lb. \$3.00; bu. of 30 lb. \$8.75.

M. & S. SHADY NOOK GRASS—It is quite difficult to obtain a satisfactory growth of grass under trees and in shady places. For sowing in such places we recommend the use of this special mixture. It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are only those that are well adapted for growing in shade. It has been successfully used on some large operations where a green sward was desired on land partially shaded by old trees. Price same as above.

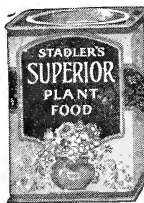

M. & S. PLEASURE GROUND MIXTURE—For fair greens, etc. The turf required for pleasure grounds must be of a character to withstand rough usage. This special mixture is made from our own formula, and will produce a permanent turf that will stand the hardest wear. For tennis courts, cricket tables, golf links, polo grounds, or wherever a good sward is wanted, this seed will give perfect satisfaction. We believe that the golf links should be as fine as a velvety lawn, hence the need of a fine mixture. Price same as above.

WHITE CLOVER— $\frac{1}{4}$ lb. 25c; $\frac{1}{2}$ lb. 40c; 1 lb. 75c. Larger quantity, price on application.

M. & S. GOLF LINK MIXTURE—This mixture is composed exclusively of fine-bladed grasses which will withstand frequent close cutting and trampling. It does not contain any White Clover, the latter not being suitable or the closely cut golf lawn. It is very important that only grasses which fulfill all requirements for the golf course are used in this mixture. 1 lb. 75c; 3 lb. \$2.00; 5 lb. \$3.25; 10 lbs. or more at 55c per lb.

GENUINE SOUTH GERMAN CREEPING BENT GRASS—Adapted admirably for lawns, also putting greens, tennis courts, etc.; sow 60 lbs. per acre. 1 lb. \$1.50; larger quantity, price on application.
